

No	PN	TI	AP	AP_Date	IC1
1	JP10225534	Golf ball manufacturing method - involves spraying polishing material of 2.5-4.5 in MOS hardness and grit of 0.1-0.8mm on surface of ball	97JP-032393	19970217	A63B-045/00
2	GB2324046	Three-piece wound golf ball - includes a spherical solid centre core portion which has a larger diameter and a lower specific gravity than cores of conventional three-piece balls	98GB-007122	19980403	A63B-037/00
3	JP10185551	Volume measuring apparatus for golf-ball dimples - has calculating unit that computes volume of golf-ball dimples from volume of each small block calculated using measured pitches and obtained cross-section of measuring unit with contact needle	96JP-357051	19961225	G01B-021/28
4	WO9832498	Golf ball to improve putting - has smooth discrete lands located at intersections of one longitudinal great circle and perpendicular to it one latitudinal great circle located at equator of ball	97WO-US01349	19970123	A63B-043/00
5	JP10175219	Mould for making golf balls - comprises a pair of split moulds to be joined together to form a hollow cavity, several core pins for supporting core in centre of cavity, etc	96JP-354535	19961219	B29C-033/10
6	JP10137367	Golf ball - sets coefficient of friction between iron surfaces of golf ball and golf club between 0.22 to 0.44	96JP-318642	19961113	A63B-037/04
7	JP10127826	Golf ball injection moulding die - has gate portions on parting surface and irregular portions on parting surface, excluding respective gate portions, to provide dimple forming protrusions spanning parting surface	96JP-307365	19961101	A63B-045/00
8	JP10127816	Golf ball with high symmetry characteristic - has equal diameter dimples formed by virtual spherical surfaces such that dimple which intersects with parting has larger edge angle than edge angle of dimple in pole periphery	96JP-302471	19961028	A63B-037/00
9	JP10108921	Golf ball - has air coupling groove having predetermined depth connected to dimple having predetermined width and length	97JP-108284	19970409	A63B-037/00
10	JP10099469	Golf ball - where dimples which are located so as to cross equator line of ball do not have their centre on equator line	96JP-275383	19960926	A63B-037/00
